Sao Sary Foundation (SSF) Annual Report 2024

Kampong Speu, Kingdom of Cambodia

Executive Summary

Throughout 2024, the **Sao Sary Foundation (SSF)** remained steadfast in its mission to uplift Cambodia's most vulnerable communities through direct-impact initiatives. Prioritizing **education, healthcare, local governance, and social welfare**, SSF addressed urgent needs while laying the groundwork for sustainable development. Our efforts extended beyond immediate relief, fostering long-term resilience and empowerment among those we serve.

A landmark achievement this year was securing a **transformative financial pledge**, ensuring the continuity of our humanitarian work through **2034**. This commitment strengthens SSF's ability to expand its programs, refine strategic growth, and provide unwavering support to those in need. With this financial foundation, SSF is poised to deepen its impact, reinforcing its dedication to **building hope and empowering lives**.

Founded in **2006**, SSF has been a beacon of change for children and families living in extreme destitution in Cambodia. The foundation's core mission revolves around **educational support programs**, particularly for children at high risk of trafficking. Over the years, SSF has implemented **community-driven initiatives**, ensuring access to **quality education, healthcare, and economic opportunities**. By fostering self-sufficiency and advocating for systemic change, SSF continues to transform lives across Cambodia, particularly in **Kampong Speu Province**.

As we reflect on 2024, SSF remains committed to **expanding its reach, strengthening partnerships, and driving sustainable impact**. With unwavering dedication and the support of our stakeholders, we look forward to a future where every child and family can thrive.

I. Accomplishments in 2024

I.1 Educational Support

In 2024, the **Sao Sary Foundation (SSF)**, in collaboration with **Ark Electronics**, responded to a critical request from the **General Department of Technical and Materials of the Ministry of National Defense of Cambodia**, delivering essential supplies to one of the **poorest schools in Koh Kong Province**. These donations have significantly enhanced **educational accessibility, student engagement, and administrative efficiency**.

- **339 School Uniforms** *(three sets per student)* Providing **three sets per student** ensures that children have **clean, proper attire** for school, fostering **dignity, confidence, and a sense of belonging**. Uniforms **reduce economic burdens on families** and create an **equal learning environment**, allowing students to focus on their education without concerns about clothing shortages.

- **113 Bicycles** *(one per student)* For many students in rural areas, **long distances to school pose a major challenge**. The donation of **113 bicycles** has **eliminated barriers to transportation**, improving **school attendance rates** and ensuring that students arrive **on time and ready to learn**. With enhanced mobility, children can **fully participate in educational activities**, while parents face less financial strain in arranging transportation.

- **113 Schoolbags with Complete Stationery Sets** *(including notebooks, pencils, erasers, sharpeners, rulers, pens, liners, and coloring kits)* Equipping students with **proper learning materials** encourages **active participation, creativity, and academic performance**. Many of these children previously struggled with **limited access to basic supplies**. Now, with complete stationery sets, they can **focus on their studies** and take pride in their schoolwork, fostering a **better educational experience**.

- **Two Laptops & One Printer for School Administration** Efficient **record management** and **resource allocation** are key to a functional school system. The **two laptops and printer** provided have modernized **school administration**, allowing staff to **track student progress, manage enrollment, and enhance communication**. This technology has enabled **better documentation and support** for teachers and students, ensuring smoother operations and improved **long-term educational outcomes**.

Lasting Impact & Sustainability

These contributions not only provide **immediate relief** but also pave the way for **sustained academic growth and institutional development**. By addressing critical gaps in **education accessibility, school infrastructure, and student resources**, SSF continues to **empower young learners and strengthen communities**, fostering **a brighter future for Cambodia's most vulnerable children**.

I.2 Healthcare Support

In response to a request from **H.E Lt. General Seng Sinarin**, Personal Advisor to **Samdech Thipadei Hun Manet**, the **Sao Sary Foundation (SSF)** contributed critical medical equipment to **Ampov Prey Health Center**, which serves **1,500–2,000 inhabitants monthly**. These donations have strengthened **healthcare accessibility, medical diagnostics, patient care, and administrative efficiency**, ensuring **better outcomes for the local community**.

- **Hybrid Renewable Energy System** *(Ensuring clean, continuous power supply)* Access to **uninterrupted electricity** is vital for any healthcare facility. The **hybrid renewable energy system**, combining **solar panels, wind turbines, and battery storage**, provides a **reliable, 24/7 power supply**, ensuring **consistent operation of medical equipment** and improved patient care. The integration of **clean energy solutions** also reduces **environmental impact** and **operational costs**, making healthcare services more **sustainable and efficient**.

- **B-Ultrasound Machine** *(Improved medical diagnostics)* With **advanced imaging technology**, healthcare providers can now **accurately diagnose and monitor health conditions**, leading to **timely interventions and improved treatment plans**. This **life-saving equipment** is particularly impactful for **maternal health, internal medicine, and early disease detection**, enhancing the center's ability to deliver **quality care**.
- **Emergency Stretchers** *(Aiding patient transportation)* The addition of **emergency stretchers** ensures that **critically ill or injured patients** receive **safe and swift transport within the health center**. In emergency cases, these stretchers significantly enhance **response times, patient mobility, and overall medical efficiency**, leading to **better recovery outcomes**.
- **150L Autoclave with Drying Function** *(Ensuring sterilization standards)* **Proper sterilization** is crucial for infection prevention in healthcare settings. The **high-capacity autoclave** enables **fast and thorough disinfection** of medical

instruments, reducing the risk of **contamination and cross-infections**. The **built-in drying function** accelerates turnaround time, allowing staff to **maintain a continuous flow of sterilized tools**, improving **operational efficiency**.

- **Oxygen Generator** *(Enhancing respiratory support)* Oxygen therapy is essential for **patients suffering from respiratory conditions, surgical recovery, and emergency situations**. By providing an **independent oxygen supply**, this generator guarantees **life-saving support**, particularly for **critically ill patients**, ensuring **immediate and effective respiratory care**.
- **720 Calcium Milk Cookies** *(Boosting nutrition and overall health)* **Malnutrition and dietary deficiencies** can significantly affect **patient recovery and long-term health**. The **calcium milk cookies** contribute to **nutritional support**, improving **bone health, digestion, and sleep quality**, especially for **children and elderly patients**. This **small yet impactful initiative** aids in **enhancing overall well-being** in the community.
- **Two Laptops & One Printer** *(Improving administrative efficiency)* Effective **record-keeping, patient data management, and communication** are vital for a well-functioning healthcare system. The **two laptops and printer** modernize **administrative processes**, allowing staff to **track medical records, coordinate healthcare programs, and improve service delivery**. This **technological enhancement** enables better **decision-making and operational management**, ensuring **more organized and efficient healthcare services**.

Long-Term Impact & Sustainability

By providing **critical medical equipment, sustainable energy solutions, and nutritional support**, SSF has reinforced **Ampov Prey Health Center's ability to deliver high-quality healthcare services**. The long-term benefits of this initiative include **enhanced patient care, improved diagnostics, greater emergency response capacity, and more efficient hospital operations**—ultimately strengthening **Cambodia's healthcare infrastructure**.

I.3 Technology & High-Level Coordination

In 2024, the **Sao Sary Foundation (SSF)** received **14 brand-new iPhone 16 devices** from **Ark Electronics**, which were donated to **high-ranking government officials coordinating SSF's humanitarian initiatives**. These tools are playing a crucial role in **enhancing communication, efficiency, and collaboration**, ensuring that **SSF's long-term charitable efforts are effectively implemented**.

- **Improved Coordination & Communication**

  With advanced **smartphone technology**, government officials can maintain **seamless communication** between **SSF, donors, and key stakeholders**, allowing **real-time updates** and efficient decision-making. Instant accessibility ensures **swift responses to urgent community needs**, enabling faster intervention and more **strategic planning** for projects.

- **Increased Operational Efficiency**

  These devices empower officials to **organize tasks, manage logistics, and oversee project execution** with greater precision. From monitoring **education programs** to tracking **healthcare resource allocation**, this technological support enhances **project administration, data management, and reporting**, ultimately accelerating SSF's humanitarian impact.

- **Strengthening Strategic Relationships**

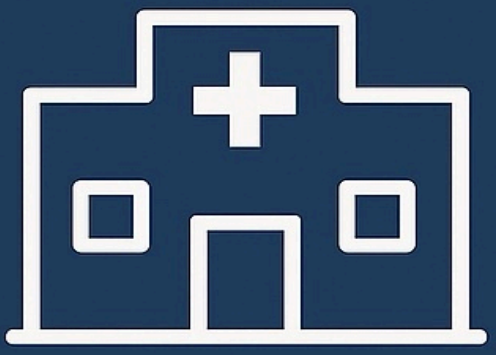
  A major component of **SSF's success** lies in **strong partnerships** with government leaders dedicated to community development. By equipping them with essential tools, SSF reinforces **trust and collaboration**, ensuring that its charitable programs remain **aligned with national priorities** and receive the necessary **institutional support**.

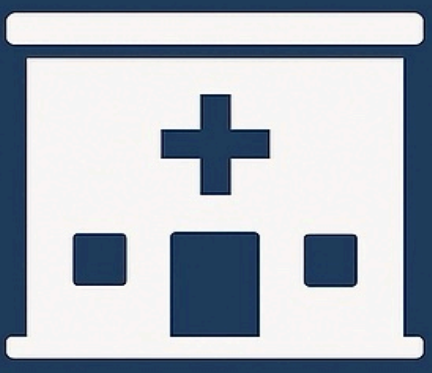
- **Direct Benefits to Vulnerable Communities**

  The enhanced **efficiency and communication** made possible by these donations translate into **faster, more impactful support** for Cambodia's most vulnerable populations. As officials streamline **educational scholarships, healthcare advancements, and infrastructure improvements**, communities see **tangible improvements** in their quality of life and **long-term opportunities for sustainable growth**.

Long-Term Technological Support for Humanitarian Action

SSF's commitment to leveraging technology for **social impact** demonstrates the importance of **modern solutions in humanitarian work**. By integrating **cutting-edge communication tools**, SSF ensures that every initiative—whether in **education, healthcare, or infrastructure**—is carried out with **precision, transparency, and effectiveness**, guaranteeing sustained improvements in **Cambodia's development efforts**.





II. Pledges Secured for 2024-2034

Long-Term Financial Commitment

SSF secured a **major philanthropic pledge** that will provide **full financial support until 2034**, ensuring sustained humanitarian efforts. The financial commitments include:

1. **$100,000 annually** for five years to support healthcare initiatives through **Samdech Techo Youth Volunteer Doctors Association (TYDA)**.
2. **$100,000 annually** for five years in scholarships to support poor students through the **Poor Student Scholarship Committee**.
3. **Scholarship and internship opportunities** for Cambodian students in China, initiated by **Madam Wenxia Zhang, Ark Group's Chairwoman**.

Infrastructure Development Commitments

SSF secured pledges for critical **community infrastructure** improvements:

- **Construction of a primary school**, including modern facilities, renewable energy systems, and transportation support.
- **Building 40 commune halls**, fully equipped with clean water, solar and wind energy, sanitation, and secure perimeters.
- **Construction of 40 police facilities** with fencing, landscaping, sanitation, and renewable energy solutions.
- **Development of 40 health centers**, incorporating sustainable energy and modern medical equipment.
- **Support for orphans and vulnerable children**, recruiting **50 children** for long-term shelter, food, and education in partnership with **Kampong Speu Provincial Administration**.
- **Construction and repairs of essential physical infrastructure** to address urgent community needs.

Looking Ahead: Vision for 2025 and Beyond

SSF remains committed to expanding its humanitarian efforts:

- **Enhancing educational opportunities** through scholarships and vocational training.
- **Strengthening healthcare facilities** by integrating advanced medical technology.
- **Improving governance and law enforcement infrastructure** for underserved communities.
- **Building on long-term sustainability efforts**, ensuring clean energy solutions and access to essential services.

Acknowledgment

SSF extends deep gratitude to its **partners, donors, and government collaborators** whose generosity and commitment have fueled our mission. Together, we continue **uplifting Cambodia's most vulnerable** and securing a brighter future.
